FICTIONAL TEST PACKET. Not a real application.

Applicant's Name: Casey Morgan

STATEMENT OF PURPOSE

Artificial intelligence is the future, and I want to be part of that future at Northwestern. I have always loved technology and I think MSAI would be an amazing experience. I am a people person and I work hard. In my classes I did several projects with AI, including a to-do app and a digit recognizer, and I learned a lot from them.

I believe I would contribute to the Northwestern community and make the most of every opportunity. My dream is to work in tech and use AI to help businesses. I am open to any specialization the faculty think is best. Thank you for your time and for considering me for this prestigious program. I know I can succeed if I am given the chance.

EDUCATION

Undergraduate institution: Illinois State University
Degree: B.S. Information Systems, 2025
Cumulative GPA: 3.20

RESEARCH

No research experience.

PROJECTS

Course project, fall 2024: a to-do list web app for an information systems class. It stores tasks in a database. It does not use a learned model. Course project, spring 2025: a digit recognizer using a tutorial neural network on the MNIST images supplied by the instructor. I followed the tutorial and submitted the notebook.

WORK EXPERIENCE

Help desk student employee, Illinois State technology support, 2023-2025. I reset passwords and imaged laptops.

HONORS AND AWARDS

None.

LETTERS OF RECOMMENDATION

Letter 1. Supervisor Pat Nolan, campus help desk. "Casey is a hard worker and a pleasure to have on the desk. Students like Casey. I recommend Casey."

Letter 2. Instructor Jamie Cole, Illinois State. "Casey completed the required projects and attended class. Casey is a hardworking student. I am happy to support the application."
